# FENCE & SCAF MESH

## PRODUCT SPECIFICATIONS

Fence and Scaf Mesh is a knitted shade cloth made for the building and construction industries. It cuts down visibility and suppresses dust around building sites. Also commonly used as a wind break. All rolls feature reinforced button hole eyelets top and bottom at approximately every 20mm intervals.
## FABRIC

Ironstone fencing shade cloth is 100% knitted monofilament HDPE (High Density Poly Ethylene) fabric especially designed for the fencing industry. All rolls are UV Stabilised for long lasting durability.

## COMPARISON

Compare the various grades of Scaf & Fence mesh below. The 30% is very open knit, the 50% is a more tightly knitted fabric and the 70% is very tightly knitted. Depending on your requirements for visibility and dust suppression you can select the fence mesh which best suits your needs.
